

EVERY ELEMENT OF THE GOOD LIFE

COMMERCIAL HUB

Enjoy approximately 85,000 sq ft of shops, services, restaurants and an inviting outdoor plaza to meet your neighbours.

FUTURE SCHOOL

Your kids can bike or walk to school with a new school planned right in the community.

PATHWAY NETWORK

A network of pathways makes the entire community accessible by foot, bike, snowshoes or skis.

COMMUNITY PARKS

Green spaces and parks will be woven throughout, so every home is within walking distance to beautiful landscapes, all programmed for four seasons of recreation and fun.

SCENIC VISTAS

Stunning river valley views can be enjoyed from multiple designed locations along the ridge.

VIEWSHEDS

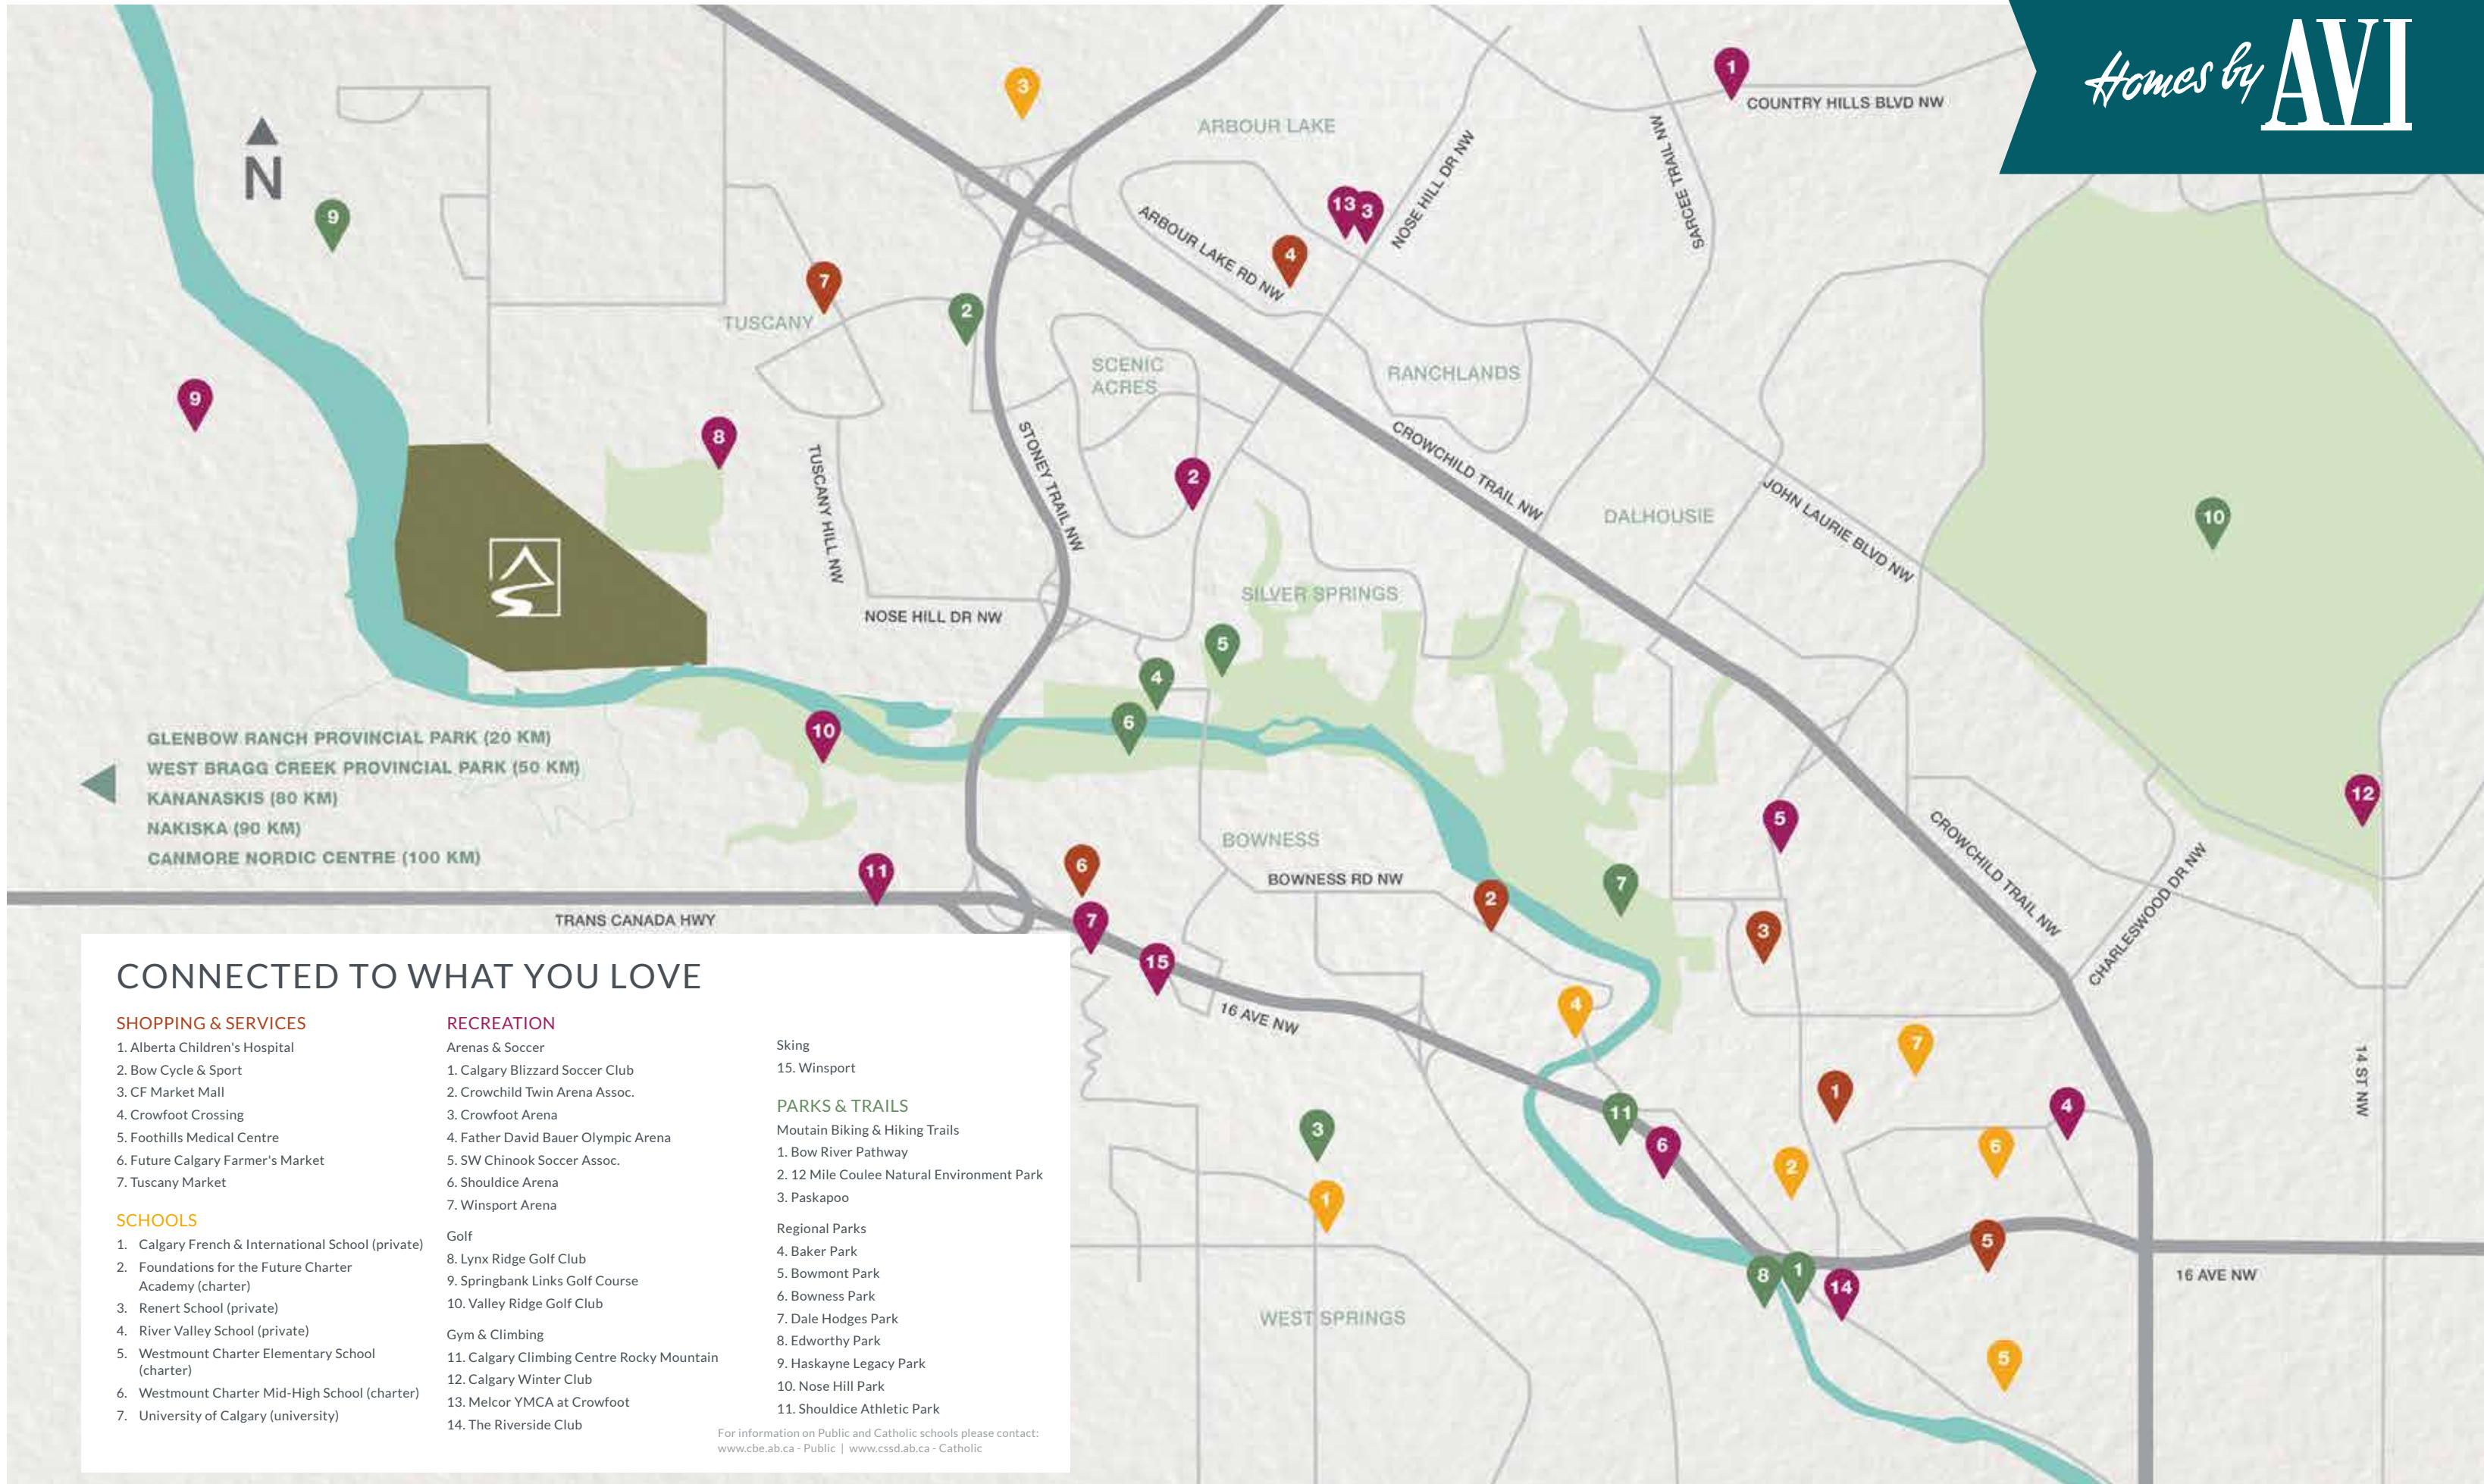

Parks are strategically incorporated to elevate residents' potential river and mountain views, and connection to the escarpment.

STORMWATER POND

The wet pond captures and contains stormwater until sediments and pollutants settle, providing cleaner water for our rivers. Critical for water management and wonderful to look at, but not suitable for recreational purposes.
